

Board – ICSE

Class – 9th

Topic – Area and perimeter of plane figure

1. Find the area of the following circles, given that :

(i) Radius = 14 mm

(ii) Diameter = 49 m

(iii) Radius = 5 cm

[Take $\pi = \frac{22}{7}$]

2. If the circumference of a circular sheet is 154 m, find its radius. Also, find the area of the sheet. [Take $\pi = \frac{22}{7}$]

3. From a circular sheet of radius 4 cm, a circle of a radius 3 cm is removed. Find the area of the remaining sheet. [Take $\pi = 3.14$]

4. Shazli took a wire of length 44 cm and bent it into the shape of a circle. Find the radius of that circle. Also, find its area. If the same wire is bent into the shape of a square, what will be the length of each of its sides? Which figure encloses more area, the circle or the square? [Take $\pi = \frac{22}{7}$]

5. From a circular card sheet of radius 14 cm, two circles of radius 3.5 cm and a rectangle of length 3 cm and breadth 1 cm are removed. (as shown in the adjoining figure). Find the area of the remaining sheet. [Take $\pi = \frac{22}{7}$]

**Exclusively for
Class 11th & 12th**

NAHAR AMRIT SHAKTI

6. A circle of radius 2 cm is cut out from a square piece of an aluminum sheet of side 6 cm. what is the area of the left over aluminum sheet? [Take $\pi = 3.14$]

7. A circular flower bed is surrounded by a path 4 m wide. The diameter of the flower bed is 66m. What is the area of this path? [Take $\pi = 3.14$]

8. A garden is 90 m long and 75 m broad. A path 5 m wide is to be built outside and around it. Find the area of the path. Also, find the area of the garden in hectare.

9. A verandah of width 2.25 m is constructed all along outside a room which is 5.5 m long and 4m wide. Find :

(i) The area of the verandah.

(ii) The cost of cementing the floor of the verandah at the rate of Rs 200 perm^2 .

Exclusively for Class 11th & 12th
